

Samuel Djommou Thengho

Junior DevOps / Cloud Engineer — Career Changer

Certified fundamentals · own applications running in production

Hamburg, Germany · contact@samueldt.com · +49 151 24862693 · samueldt.com

PROFILE

Career changer moving into DevOps & Cloud, with over a year of self-driven learning now backed by **certified fundamentals** (Certified STACKIT Cloud Engineer; Linux, Docker, Kubernetes, Terraform). Currently working as a warehouse operative while transitioning into IT.

I have **designed and shipped real web applications to production** — including a paid client project and two personal platforms used as practice environments — continuously deployed on cloud platforms (Render, Vercel) with a managed PostgreSQL database. I handle deployment, cloud service configuration, environments and secrets myself. Microsoft Azure AZ-900 certification in progress.

Aware of my junior level, I'm looking for a role where I can learn, be mentored and grow over the long term.

EXPERIENCE

Warehouse Operative since May 2026
Company in Hamburg — via Randstad

Employment held in parallel with my DevOps retraining.
Reliability, accuracy and structured work in daily operations.

Freelance Web Developer 2021 – 2022
Fiverr — international clients

Websites and landing pages for e-commerce / dropshipping clients.
End-to-end project delivery with an international clientele.

HANDS-ON PROJECTS

mymifa 2026
Family communication app — personal project

Full-stack application (PWA), **deployed and put into production by me**, orchestrating several cloud services.
Cloud infrastructure: provisioning and configuration (Vercel, Neon PostgreSQL); strict dev / prod separation.

CERTIFICATES & COURSES

Certified STACKIT Cloud Engineer (EN) Mar 2026
STACKIT University — Schwarz Digits

STACKIT Fundamentals — 7 Mar 2026
completed courses:
Linux · Docker · Kubernetes · Terraform · DevOps · Cloud Foundry · STACKIT Product · Deploying on Kubernetes Engine

AI Fluency: Framework & Foundations 2026
Anthropic

Microsoft SQL Server Database Administration 2023

Microsoft Azure AZ-900 2026
in progress

STACKIT University courses (Schwarz Digits), completed.

SKILLS

Cloud & Platforms

STACKIT (certified)

Azure (in progress)

Continuous deployment: GitHub → Vercel pipeline (auto-deploy, build cache, rollback).

DNS & domain: production DNS zone (A record, CNAME) with automatic SSL.

Integrated services: Cloudinary, Pusher, Redis/Upstash, Sentry.

Next.js · React · TypeScript · PostgreSQL · Prisma · Vercel · Cloudinary · Upstash · Pusher

Method: application code built with an AI assistant (Claude Code); deployment, infrastructure and go-live carried out and understood by me.

- **Live:** [mymifa-app.vercel.app](#)

bolo237

since Oct. 2024

Jobs & services platform (Cameroon) — practice environment

Full-stack application built to learn deployment and operations hands-on.

Production: continuous deployment via Git on Render + Vercel.

Managed PostgreSQL (Neon), environment management, environment variables, domain and HTTPS.

Node.js · Express · React/Next.js · PostgreSQL · Render · Vercel

- **Live:** [bolo237.com](#)

Schmidts Zaunbau Nord

Jan. – Apr. 2026

Company website — paid client project

Responsive, bilingual (DE/EN) multipage website for a fencing company in Hamburg.

Gallery, before/after slider, contact form, GDPR-compliant Google Maps, SEO.

HTML5 · Tailwind CSS · JavaScript · Git/GitHub · continuous deployment via Git

- **Live:** [schmidtszaunbaunord.com](#)

Render

Vercel

Containers & IaC

Docker

Kubernetes

Terraform

certified fundamentals

CI/CD & Versioning

Git / GitHub

Continuous deployment

GitHub → Vercel

Systems & Languages

Linux (Ubuntu)

Windows

Bash

JavaScript / TypeScript

Python (basics)

SQL

Databases & Services

PostgreSQL

Prisma ORM

Cloudinary

Pusher

Redis (Upstash)

Sentry

Methods

AI-assisted development

Prompt engineering (multi-LLM)

🔄 **Currently learning**

Ansible · Puppet · Terraform (in depth) · CI/CD with GitHub Actions · advanced Linux/Windows administration — core topics of my ongoing DevOps learning plan.

LANGUAGES	
French	Native
English	Bilingual — daily use in IT
German	B1, actively progressing

EDUCATION & TRAINING

Technical training — IT (Systems Integration) 2014 – 2017

Vocational training (evening course) · Douala, Cameroon — certificate Aug. 2017

ADDITIONAL

Driving licence (Cat. B)

Volunteer: IT unit & sports coordinator, Camas e.V. (Stuttgart)

Interests: Cloud & DevOps, AI / automation, entrepreneurship, football

Bachelor — Banking & Finance	2020
University studies · IUT Bandjoun, University of Dschang, Cameroon	
BTS — Banking, Client Relations	2017
University studies · IUT Bandjoun, Cameroon	
High School Diploma (A4, Literature)	2014
Cameroon	
German Course B1	2022
Anglo-German Institut, Stuttgart	

Hamburg, 2026
